

Get a FREE Cyberbit Cyber Range Workshop!

Cyberbit is the leading cybersecurity skill development platform and cyber range for the financial sector, and was selected by the FS-ISAC to power FS-ISAC's monthly cyber range exercises.

Cyberbit workshops are the most effective way to prepare for real-world cyber-attacks and with over 500,000 training hours delivered annually, a growing number of financial institutions are shifting to training their SOC teams on Cyberbit.

With Cyber-attacks against government organizations accelerating at a breakneck pace, now is the time to step up your team's incident response capabilities.

Your team was especially.....networks.

Why You Should Register Your Team:

-  Stress-test your team's cyber defense capabilities in real-world incidents
-  Prepare your team for cyber-attacks, and improve MTTR
-  Allow your team to qualify for CPE credits
-  Receive a detailed exercise report after the workshop
